

GOTHENBURG & JÖNKÖPING (WEST)

Emil Lundgren Väst has offices in **Gothenburg och Jönköping** and work mainly with electrical and telecommunication installations.

Activity

The department in **Gothenburg** is a leading electrical contractor in the building and property sector. Our main expertise is tasks with functional responsibility, known as turnkey projects, preferably in connection with new construction of offices, shopping malls, hotels, hospitals, industrial and logistics buildings. Our experienced service department takes care of minor electrical work for companies as well as maintains the completed contracts.

In **Jönköping** we have a history of ongoing commitments in industry as well as a flexible organisation handling smaller as well as medium-sized contracts and occasional service assignments.

Both departments also have many years of experience installing fire alarms, burglar alarms, access control, computer net, CCTV plants etc.

We mainly work with the following things:

- ✓ Installations involving everything from smaller, simple installations to large, complex projects in high as well as low voltage.
- ✓ Solutions for telecommunications and computer communication as well as safety and surveillance plants.
- ✓ Efficient service and regular maintenance of executed installations.

Customers

Some of our customers are:

- ✓ Peab
- ✓ NCC
